New York Today.**

MINERS PLAN COUNTER MOVE

New York, Sept. 28.—[Special Telegram]—John Markle, the independent coal operator, called here in consultation regarding a strike settlement, arrived this morning and was driven direct to the offices of President Watter and Vice President Sayre of the Lehigh Valley railway and other operators.

Takes Two to Make a Bargain.
Scranton, Penn. Sept. 28.—[Special Telegram]—The strike officials say that they have received no notice of the settlement of the strike. They say it takes two to make a bargain. In the mean time they are going right ahead strengthening their position.

Strike Sentiment Spreading.
Mahanoy City, Pa. Sept. 28.—[Special Telegram]—There are no new developments in the strike situation at Shenandoah and Mahanoy City. The collieries are all idle but the men are all orderly and the troops have nothing to do but drill. In the Ashtand district east and at Locust Spring the collieries are tied up this morning and the strike sentiment is spreading. Minersville is quiet. It is expected that two thousand work men there in the three collieries will strike by nightfall. The prospects of a settlement are welcomed by the miners and public alike.

Must Recognize Unions.
Hazleton, Pa., Sept. 28.—The anthracite coal operators have offered the striking miners an advance of 10 per cent. on condition they return to work at once, and it is said a rebate on powder of 12½ cents may also be proposed. The move was decided on at a meeting held in New York yesterday, but, as the union was ignored, President Mitchell still talks fight.

Whether the men themselves will stand firm is another question. The strike leaders say the 130,000 men will not go back to work till they go as a union. The operators declare the strikers have secured what they desired and that the collieries will be in full operation again in a few days.

Mitchell Denies Settlement
Meanwhile the strike leaders are not idle, though they declared no offer had been made by the foe. They will consider no offer that is not made to the union. When asked for an expression of opinion President Mitchell said:

"The report that the anthracite coal strike is settled is absolutely untrue. The strike cannot be ended without my knowing it, and I have no knowledge of any efforts which would lead to an immediate settlement. No overtures for a settlement have been made to me. I understand that a telegram to this effect was received at Scranton, but I know nothing of it."

Miners Plan Counter Move
Though taken somewhat by surprise by the operators' sudden move no time was lost at strike headquarters in devising a plan to check the threatened desertions in the strikers' rank.

This morning neither the operators nor strike leaders know what the outcome will be. The latter claim 90 per cent of the strikers are union men and will return to work only at the behest of that organization.

The operators say only 30 per cent of the idle army owes fidelity to any organization and that when these see 70 per cent of the miners at work they, too, will weaken, or if they do not, it is added, it will be of no importance, for the mines can run without them.

TELLS OF GALVESTON HORROR

Weather Bureau Report Says 6,000 Deaths, \$30,000,000 Loss.
Washington, Sept. 28.—The weather bureau has received from I. M. Cline, its local forecast official at Galveston, a report on the hurricane of Sept. 8. Mr. Cline's map of the area of total destruction, checked by the estimates of the insurance underwriters, indicates that 3,636 houses were totally destroyed. The loss of life, he says, never will be exactly known, but it estimated at over 6,000. The property damage will exceed \$30,000,000.

BONDAGE STILL IN FORGE.

These Negroes Thought They Were Slaves.

Joliet, Ill., Sept. 28.—Slavery still exists in the Yazoo mountains of Mississippi, and the negroes there do not know they are free.

Refugees just arrived from there say they have been in bondage all these years. The president has been appealed to to have the slaves still held there set free.

Wade Crowder, the leader of the refugees, tells this story:

"I was born on Marse Crowder's plantation in Mississippi, on the Pearl river. I did not know I was free until a week ago, and neither did any of us. Nobody ever came there to tell us. 'Marse Crowder had about seventy-five colored people working for him. If we tried to get past the patrol they would catch us, take us back to the master, and we would get a whipping. 'One day last week my wife did not pick her share of cotton because she was poorly and the negro driver gave her a terrible beating. He whipped her till the clothes stuck on her back. 'That made us mad and we planned to run away. Twelve of us were in the party. After we had gone about twenty miles we found a white man named Davis, who carried us to Grenada, where we were put into a box car."

NEW LUMBER YARD IN SPRING BROOK

Messrs Pendleton & Gilkey Extending
Their Business—Will Handle
Cedar Lumber Exclusively.

Work was commenced this morning by the C. & N. W. railway on the side tracks in Spring Brook addition for the benefit of the new lumber yard which is to be located there by Messrs Pendleton & Gilkey.

It is the object of this firm to use the new yard as a centralizing yard where they can keep on hand a supply of lumber which will enable them to fill an order from any nearby firm in from twenty four to forty eight hours. As it is now if they get any order for a carload or several carloads of cedar posts the order has to go to the mills in the northern part of the state and much valuable time is lost, whereas under the system mapped out by the firm the lumber could be shipped at once.

Their large yards and lumber interests in the northern part of the state gives them excellent facilities for operating a plant of this kind. A building will be erected and an engine and machinery put in so that any kind of lumber can be put in shape to fill the orders.

This is not an experiment, as these centralization yards are operated extensively in the northern part of the state, but there is no plant of the kind in southern Wisconsin. The proprietors think that a dealer will be willing to pay them a small profit over the ordinary price in order to get exactly what they want, and to get it in quick time.

They will handle cedar lumber exclusively at the new yard, and later will carry in stock the sixty-foot Idaho poles and Washington cedar shingles.

Spring Brook addition is an ideal spot for an enterprise of this kind, and with good railroad facilities, it should soon become a business center.

PLANS COMMERCIAL ALLIANCE.

German Author Favors Union with England Against United States.

London, Sept. 28.—Germany and Great Britain in commercial alliance to fight the United States is the latest European proposal for the purpose of combating American aggressiveness in foreign trade. The suggestion is put forth in a German book dealing with the Kaiser's new commercial treaties. Its recommendations on the subject have given rise to an interesting discussion among British merchants and manufacturers. Dr. Vosberg Rekow, the author of the publication, proceeds on the theory that Russia, England and the United States are Germany's only dangerous competitors in the market of the world, but he pronounces the danger from the United States "immediate." Dr. Rekow says that the urgent demand of the hour is that Germany and England "keep Russia tributary and defeat the United States altogether." He says this can be accomplished by a reciprocal Anglo-German tariff treaties.

POPULIST WORSLEY AS A NON-PARTISAN

THE LETTER HE WROTE TO
CONGRESSMAN BARNEY.

He Did Not Get A Reply and He is Now Stumping the Fifth District For the Democratic Nominee—The Business Is Rather Peculiar to Say the Least.

Milwaukee, Wis., Sept. 28.—A. A. Worsley of [Sylvania, Racine county], was the Populist candidate for governor two years ago. This year he is making speeches for Mr. Weiss, the democratic candidate for congress in the Fifth district. A month ago Mr. Worsley, who has a campaign voice that rivals the fog horn in power, appears to have been in doubt whether duty or something else, called him to speak in Wisconsin. He wrote Mr. Barney, the Republican candidate for re-election in the Fifth district:

Worsley's Letter to Barney
"Sylvania, Aug. 24, 1900—Hon. Mr. Barney, West Bend, Wis. Dear Sir: I have bin invited to come into your district to speak for 30 days at good pay, since I was in Ohio 30 days last fall speaking for Jones, a non-partisan. I am also non-partisan. I was the candidate for governor of Wis. of the People's party last campaign, but I thought it unwise to run a ticket

HORRORS OF THE PEKIN SEIGE

Mrs. Edwin H. Conger, wife of the United States minister in Pekin, China, has written the following letter to her sister, Mrs. J. S. McConnell of 4359 Lake avenue, Chicago:

"Pekin, China, Aug. 16. My Dear Ones, All:—We are alive and safe. Our troops arrived the 14th. O, what a rejoicing! What a day! If you could only have seen us you could realize a little the true feeling of the heart. Heart spoke to heart.

"We have been besieged in the British legation ever since the 20th of June and under fire day and night. At times the battles would be terrific. It would seem that they were right upon us, but they were not.

"They tried to kill us with their bullets and shell; then to burn us up; then to blow us up with their mines, and at last to starve us out. Nor is this all. They kept laying traps to get us to come out of our fortified city with promises to escort us to Tien Tsin or to go to the tsung-li-yamen and be under his protection. We did not listen to them.

"We ate horse meat and mule meat, and it was good. We ate rice, rice, and it was good. I will tell you we were grateful—we knew how to be. For two days we killed dogs for the Chinese converts.

"The night of the 13th was the most terrible night of all. We were under fierce and angry fighting the night through. They again opened up their cannon upon us. It seemed as though they would break through and come down upon us. The bell in the tower tolled and tolled for every man to be at his post, as a general attack was being made upon us.

"I cannot tell you how dreadful all of this has been. The almighty hand of God alone has saved us."

this fall, so the boys did as I thought best. Know have you anything to say before I enter your district? I mean do you know any good reason why I should not speak for Mr. Weiss. I have plenty of other work in other states at better pay and as I feel that my work means your defeat I want you to write me. You realize this. This defeat on this year means the end of your political career. This is only my opinion. You must consider I am not a democrat. I am not a republican. I am non-partisan. Let me hear from you at once.

"Yours truly,
"A. A. WORSLEY,
"Sylvania, Wis."

He Added a Postscript.
Mr. Worsley added a postscript, saying: "Enclosed find a little (book). If I go to speak for Weiss, he takes 50,000 of these books. They will say on the cover the way to secure direct legislation is to vote for Ch. Weiss for congress. If I don't speak for him these books won't go there."

Congressman Barney did not reply to Mr. Worsley's letter. Mr. Worsley is now campaigning in the Fifth district for the democratic nominee for congressman. Just why he did not give his campaign voice to other states, where he says, "I have plenty of other work at better pay," is still unexplained. The only clear fact is that Mr. Worsley and his campaign books are finally enlisted in the cause of Mr. Weiss, and that Mr. Worsley reached the conclusion thus to exert his "non-partisan" efforts after Congressman Barney had failed to give him any reason why he should not do so.

WOMEN GET OFFICERS' AID.

Chicago and New York Dressmakers Helped in Defending Government.

New York, Sept. 28.—Custom house officials think they have sufficient proof to convict a deputy surveyor and a customs inspector of collusion with importers in smuggling goods into this port. The proof consists of an autograph confession made by Mrs. M. Shanahan, a New York dressmaker, and of an oral confession made before Surveyor Croft, Saturday, Sept. 8 by Mrs. Hall of Chicago, another dressmaker, whose trunk was seized as it stood on the coach of the Waldorf-Astoria hotel at the head of the pier. Both women stated in their confessions that they had made terms with a deputy surveyor who was to see to it that their trunks got by the treasury officials without paying duty. Mrs. Hall's possession of dutiable goods was "tipped off" from Paris. Mrs. Hall went to the custom house the day after the seizure of her trunk and made a detailed confession. In investigating the matter the custom house officials find that by a curious coincidence the trunks of the two dressmakers were assigned to the same inspector.

The streets were brilliantly illuminated, and a large procession of men, headed by Mayor Simon J. Murphy Jr., all carrying the "full dinner pail," escorted the speaker of the evening through the principal streets and to Hagemaster hall, where the rally was held. An audience of between 3,000 and 3,500 people listened attentively to Mr. La Follette's speech, and showed their appreciation of his sentiments in their liberal applause. He stamped as absurd the four propositions of W. J. Bryan and the democratic party as to the disposal of the Philippine Islands. He then took up the other national and state issues.

CAPTURED BY THE FILIPINOS

Captain Shields and 28 Men
From the 29th Regiment Taken.

Washington, Sept. 28.—[Special Telegram]—Gen. MacArthur cables from Manila as follows: "On Sept. 11 Captain Devereaux Shields with fifty one men from Company E, Twenty-ninth regiment and one hospital corps of six men, left Santa Cruz, Marinduque by the gunboat Villalobos for Porjios, intending to return overland.

"I have heard nothing from him since and scarcely doubt but that the entire party has been captured, with many killed and wounded, Shields among the latter.

"Information sent by letter from the commanding officer at Boac, dated Sept. 20th and 24th, consisted of rumors through the natives.

"The Yorktown and two gunboats, Col. Anderson of the Thirty-eighth, with two companies of the Thirty-ninth were sent to Marinduque immediately.

"Anderson confirms the first report as to the capture but was unable on Sept. 27 to give any details of the present whereabouts of the party or the names of the killed and wounded.

"Anderson has orders to commence operations immediately and move relentlessly until the party is rescued alive.

HARD RIDING FOR NEW TOBACCO CROP

CONSIDERABLE PART OF THE CROP CONTRACTED FOR.

Prices Offered Look Attractive to the Growers—Death of John S. Bullis—Saloon License at Cambridge Raised to \$500—Edgerton Social and Personal.

Edgerton, Sept. 28.—In reviewing the market from this point the Wisconsin Tobacco Reporter of today has to say:

The movement of the new crop is extending; trading that up to a week ago was confined to the Vernon county section is now pretty generally spread over the entire state. A good deal of riding is being done out of this market the past week and in some instances rather rapid buying has taken place. It is quite probable that something like a thousand acres have been contracted for by the dozen on more buyers already on the road. The prices that are offered look rather attractive and most growers seem willing to accept the going figures. The dickering is largely done on the percentage to be allowed at filler prices.

There is considerable injury after old stocks but mostly of a class of goods the local markets have but little of. Child & Spitzner succeeded in picking up about 30000 of old leaf from local packers at various places during the week. John Soullman & Co., of Janesville sold their '99 packing some 50000 to John H. Myer of Chicago. The curing of the new crop is coming along satisfactorily. Most of the early harvested being entirely cured out.

H. S. Pomeroy began stripping his 1900 crop Tuesday. The rains early in the week brought the tobacco into cases and it was entirely cured out a portion was taken down and stripped. This is the earliest stripping record made in the state and is an indication that the early harvested tobacco is completely cured.

It costs ten cents to "lap up one" in Cambridge now a pays, and that ought to be considered cheap in these prosperous times. At a special election held in that village recently it was voted to raise the saloon license from \$350 to \$500 and scarcely had the result of that election been heralded to the public than the saloon keeper raised price of a drink of whiskey from five to ten cents a glass. The quality of the drink remains the same, and the ten cent portion will produce no more hilarity or route a sedentary case of the blues with any more dispatch than the former five cent bowl did. And thus it is that the palate of the bibbler in Cambridge will never realize the difference between a five and ten cent bath.

Mr. O. Pomeroy of the town of Fulton is offering his farm for sale. Mr. Pomeroy intends to quit farming for the present and locate in some city where his children may have the advantage of attending college or the university and he himself will continue in the tobacco business. Orry is one of the shrewdest and most persevering tobacco buyers that rides over the "pike" and in the past few years he has unquestionably bought more tobacco than any other man who went into the field single handed. When the buying season is on he spares neither the team or Pomeroy until he has returned enough crops to fill the customers' orders.

On Saturday, Sept. 22, 1900, John S. Bullis died at his home in the town of Albion at the advanced age of 87 years. Mr. Bullis came to Wisconsin from New York in 1842 and settled in the town of Albion where he has since lived up to the time his death. He has been married three times and just so many times has death taken his helpmeet from him. Funeral services conducted by Rev. E. J. Symons of Edgerton, were held Monday and another one of Albion's pioneers

accompanied by mucus patches in the mouth, eruptions on the skin, sore throat, copper-colored spots, itching, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

S. S. S. is the only safe and infallible cure for this disease, the only antidote for this specific poison. It cures the worst cases thoroughly and permanently.

My Condition Could Have Been No Worse. In the fall of 1897 I contracted Blood Poison. I tried three doctors, but their treatment only made the sores and ulcers worse. I suffered severely from rheumatic pains in my shoulders and arms. My condition could have been no worse; only those afflicted as I was can understand my sufferings. I had about lost all hope of ever being well again when I decided to try S. S. S.

I must confess I had little faith left in any medicine. After taking the third bottle I noticed a change in my condition. This was truly encouraging, and I determined to give S. S. S. a thorough trial. From that time on my improvement was rapid; S. S. S. seemed to have the disease completely under control; the sores and ulcers healed and I was soon free from all signs of the disorder. I have been strong and healthy ever since.

L. W. SMITH, Lock Box 611, Noblesville, Ind. is the only purely vegetable blood purifier known. \$1.00 is offered for proof that it contains a particle of mercury, potash or other mineral poison. EVANSVILLE.

Evansville, Sept. 28.—We seem to have had more than our share of excitement during the past ten days. Wednesday night burglars entered the residence of Eugene Harris, on East Main street. They approached through the cellar, but finding the inside door leading up stairs securely bolted, contented themselves with what eatables there were in the cellar. It was probably the work of tramps.

The Eastern Star convention and banquet held in this city Wednesday evening was a grand success. About 125 delegates from Madison, Oregon, Brooklyn, Stoughton, Edgerton and Janesville were in attendance. Clinton, Sept. 28.—Cards have been issued announcing the marriage of Miss Jeanie Gilbert and George Cook of Monona, Iowa, Oct. 3rd, at the home of C. T. Gilbert.

There will be a flag raising with appropriate exercises in the Winnegar school district, two and one-half miles north of Clinton, Saturday afternoon. Speakers are expected from Janesville.

Miss Mayme Sherwood took the noon train on Monday for her home in Sioux City.

On account of sickness last Sunday Dr. McChesney was unable to occupy the pulpit. Rev. Howard preached in the morning.

Mr. and Mrs. S. S. Jones entertained a small company of friends Monday evening, one of the features of entertainment being singing in the telephone for the benefit of the neighbors, either far or near. The wind and weather being unfavorable it could not be heard distinctly all the time.

J. R. Heimer returned the first of the week from his western trip.

Mrs. Will Elithorpe's father from Edgerton has been visiting her.

Mrs. George Reeder is receiving a visit from her mother.

Rev. Wm. Moore will preach at Emerald Grove next Sunday morning. Rev. W. L. Curtiss will occupy the pulpit here.

C. L. Hanson has been quite sick for a few days.

Mrs. Gilles of Creston, Ill., left for her home Thursday after a few weeks' visit with her daughter, Mrs. C. W. Collier.

Miss Fannie Woodard took the train for Janesville Thursday.

False Lover's Darling.

Mattoon, Ill., Sept. 28.—The daring act of Walter Ferguson of Sullivan, who took his sweetheart, Miss Mamie Roberts, from the side of her father to marry her against his consent, and rode over rough country roads at breakneck speed, Tuesday night, is the topic of conversation wherever the couple is known, and nearly everyone has praise for his boldness.

The nuptial knot was tied a few minutes before Mr. Roberts sent warning to the county clerk not to issue a license to the young man who wanted to marry his daughter.

Lieutenant Danmer Killed.

Washington, D. C., Sept. 28.—A dispatch from General MacArthur, dated Manila to-day, reports the death there of Second Lieutenant James D. Lieutenant Danmer was a native of Pennsylvania, and had prior service as private in the 8th Pennsylvania volunteer infantry during the Spanish-American war.

A STOMACH REMEDY

should be judged by its merits. That which cures—and has for half a century—deserves the highest praise. Such a remedy is Hostetter's Stomach Remedy. It should be taken for indigestion, constipation, dyspepsia, biliousness, nervousness, or malaria, fever and ague. There is no medicine known to science which will give better results in stomach disorders. A trial will certainly convince you. Our PRIVATE REVENUE STAMP covers the neck of the bottle.

TAX COMMISSION WILL MEET OCT. 2

Life and Fire Insurance Companies Will Be Heard—To Be the Last Public Meeting.

Madison, Wis., September 28.—[Special]—The state tax commission will give another public hearing in pursuance of its plan of investigating the facts concerning the different kinds of property and interests in relation to taxation. This time the hearing will be for the Life and Fire Insurance companies, and has been set for Tuesday afternoon, October 2, at the offices of the commission in the Capitol. The Northwestern Mutual Life Insurance company will be first heard on that date, and all representatives of other companies who may see fit to appear will also be given opportunity for argument or remarks. The session will be continued until all who may be present have had the opportunity they desire to present their views.

This will probably be the last public hearing that can be given by the commission before making up their report for the next legislature. The commission now has a mass of statistics and information which will have to be digested and got into form for sub report, and has several months of hard work before it to accomplish that purpose.

WONDERFUL CURE OF DIARRHOEA

A Prominent Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy—Read His Editorial.

[From the Times, Hillsville, Va.]

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by Smith's Pharmacy, next to P. O., kodak agents.

Grand Old Men

Some men seem to defy old age. They walk erect. Their eyes are bright. Their laughter is hearty. They are men of to-day—not men of yesterday. They are also men who have kept themselves in good physical condition in the past. As we grow older waste matter accumulates in the system. The body cannot throw it off without assistance. So, little by little the machinery of the body is clogged. Vitality is lowered and enjoyment of life ceases. Dr. Pierce's Golden Medical Discovery, cannot make old men young, but it does make them strong and healthy. By removing the waste accumulations, by increasing the blood supply, by strengthening the stomach and organs of digestion and nutrition, and thus increasing the assimilative and nutritive powers, "Golden Medical Discovery" makes grand old men. "I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. C. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach, had vertigo, and would fall helpless to the floor. I commenced taking Dr. Pierce's Golden Medical Discovery and little 'pellets.' I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicine." Dr. Pierce's Belletts greatly benefit old men by keeping the bowels in activity.

BOERS AT ST. HELENA.

Captain Mann Tells of the Captives' Prison Life.

DANGER IN CROSSING THE LINE.

Disobedient Boer Shot Down by a British Sentinel, Who Was Exonerated by a Court Martial—Prisoners Confined in Barbed Wire Double Prison Pen.

The British steamship Masconomo, one of the Logan liners, arrived at the Erie basin, in New York, from South Africa the other day. The Masconomo has been engaged in transporting supplies from St. John, N. B., for the British army. Her charter has expired, and she returned in ballast, stopping at out of the way St. Helena to repair her machinery.

Captain Alfred Mann of the Masconomo was permitted by the British governor to visit the camp of the Boer prisoners. The Masconomo anchored under the perpendicular cliffs for 36 hours. Nobody on shore could make the repairs, and Captain Mann was permitted by the commander of H. M. S. Niobe, lying at St. Helena, to enlist the services of the machinists' gang.

Captain Mann rode in a two wheel trap up the five mile winding road to the top of Rupert hill, in Deadwood plain, where he found the prison pen of General Cronje's gallant 2,000. Deadwood plain is east of Jamestown. The stockade is two miles from Longwood, which was the home of Napoleon.

The Boer captives are confined within a barbed wire inclosure a quarter of a mile square. Twelve feet from the fence on all sides is a second trench like the first. It is death for a Boer private to cross the line of the inner pen. Captain Mann said that a Boer, wishing for a change of scene, left the inner inclosure and advanced to the outer inclosure. The sentinel warned him and ordered the man to go back. The Boer only laughed. The sentinel fired and killed his man. The British soldier was then tried and acquitted by a court martial.

"While the British soldiers sleep 13 men in a tent," said Captain Mann to a New York World reporter, "the Boers sleep only ten men to a tent. In order to afford them all the room possible the British have allowed the Boers to cut bamboo for shacks. These bamboo frames the Boers have ingeniously covered with canvas and with slabs of tin. The tin they obtained in a curious way. There were on the island a great many paraffin cans, which the Boers carefully flattened out for tin sides and roofs to their shacks.

"There is a fine view of the Atlantic from the camp, the weather is delightful and the southeast part of the island very productive.

"Some of the prisoners are permitted to work for the farmers on the island and thereby earn a little money. Many are dark skinned, six foot fellows who go about smoking long pipes. They always give the military salute if they meet you in the highway. These Boers fraternize with the inhabitants.

"The nearest approach to anything like uniforms was three uniform hats which I picked out among the 2,000. There were many men 70 years old and just as many others 15, 16 and 17. The officers with whom I conversed speak both Dutch and English. The privates are not as bright as their officers. They seemed rather a stupid lot. They have the same fare as the British soldiers.

"There are two regiments in the garrison—the West Indian colored regiment, composing the regular garrison, and the Fifth Gloucester Infantry, Lieutenant Colonel Evans—guarding the prisoners. The Boers have such an aversion to blacks that the proposition of assigning the West Indians to guard the captives could not be entertained.

"I conversed with Colonel Schiel, the German officer who fought with the Boers. He was very cantankerous still. Commandant Rose, the Boer officer who captured Winston Churchill, was very conciliatory. He told me that he thought the game was up and his people ought to stop fighting.

"The Boer officers are allowed to do pretty much as they please, and their names are posted at the St. Helena club. The British officers entertain them at afternoon teas, and General Cronje is practically the steady guest of the governor.

"A cable now runs to the island from South Africa, and the bulletins from the seat of war are frequently struck off and sold to the prisoners for a penny apiece. A Dutch ship anchored while I was there, but was requested to leave, and did so. The British were afraid some of the Boers would get away on their cousin's ship."

At Algon Bay and Cape Town Captain Mann saw hundreds of tons of stores for the British army spoiling because there were not cars enough to carry the stuff inland. The wreck of the Mariposa, sister ship to the Masconomo, which was burned in Algon bay, was still hot when the Masconomo left.

MR. BRYAN'S WARNING.

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

"IMPERIALISM" AT ITS WORST.

All democrats must agree that Porto Rico is a bad case of "imperialism." Nobody will contend that the island has been so fortunate, for instance, as Hawaii has been or as the Philippines are likely to be. Hence every opponent of "imperialism" must feel keen interest in a manifesto issued by the dominant political party in Porto Rico on July 25, recapitulating the losses and burdens that have been inflicted upon the people under the benighted and despotic rule of this republic. The manifesto says:

We have no longer the stamped paper; Nor the duties on transfer of property; Nor the personal certificates; Nor the passport; Nor the export duty; Nor the tax on professions; Nor the import duty, which is now insignificant, and which is left to us to abolish.

Nor the tribute to the crown of Spain; Nor the tribute to the Veragua race; Nor the tribute to the Minister of Colonies.

Nor war tribute in time of peace, and navy tribute without navy; Nor pensioned people (who were not Porto Ricans);

Nor mounted police (guardia civil); Nor military courts to try ordinary and political offenses; Nor alcaldes appointed by the government;

Nor military governor, American "imperialism" has despoiled the Porto Ricans of all these possessions. And what has the arrogance of a heartless plutocracy substituted for them? Hear the Porto Ricans again: But we have the inviolability of our

homes and the habeas corpus; The courts of justice, composed of Porto Rican magistrates; The divorce law, which guarantees domestic peace; Uniform currency; Regularity in the exchange; Postal money orders; Uniformity in the postal stamp; The municipalities will be autonomous; We have suffrage, the extension of which is left to us; We have Porto Rican troops; An insular police composed of Porto Ricans;

Free justice, for which the judges are responsible without the inconvenience of the prejudgments; And quick procedure, the modification of which is left to us; And we have representation in the executive council, even if not exactly to the extent we deserve;

And we have a house of representatives to legislate for the island.

Is not this a heart rending picture of the baneful results of one year of republican misrule, imperialistic tyranny, pitiless militarism, conscienceless commercialism and debauching, degrading and demoralizing McKinleyism? Does not this horrifying spectacle of desolation and ruin wrought by our hireling soldiery and pampered carpet baggers in the ill fated island justify William Jennings Bryan in declaring that if he is elected he will call a special session of congress to protect the Philippines against the blighting influence of American institutions and place the destiny of eight millions of people in the hands of that intrepid brawler, incendiary, assassin and original anti-imperialist, Emilio Aguinaldo?—Chicago Inter-Ocean.

OUT OF THE BUREAU DRAWER.

No increase in popularity seems to accrue to 16 to 1.

Indiana continues to contribute prominent democrats to the republican cause.

Mr. Bryan's speeches illustrate the fact that there is a vast difference between reasons and reasoning.

Silence must not be taken as evidence of a change of heart, and Bryan has never confessed that he was mistaken either about free silver or free trade.

The fact that the republicans insist on choosing their own line of battle during the present campaign is considered very unfair by the enemy.

Four years ago Sumner county, Kansas, went overwhelmingly for Bryan and calamity. This year the same county will sell \$4,000,000 worth of wheat at McKinley prices.—Kansas City Journal.

Those timid people who imagine the constitution is violated and the republic destroyed because there are American soldiers in China without a declaration of war by Congress, may be comforted knowing that the war with Mexico was fourteen months old before there was a formal declaration thereof.

COOLEY SAYS IT WAS AN ACCIDENT

He Never Intended To Kill Conroy With That Jack Plane.

WEEPS BITTER TEARS

Gives His Version of The Friendly Quarrel That Resulted So Fatally.

FRIENDS RALLY ABOUT HIM.

Sobbing as if his heart would break and with tears streaming down his wrinkled cheeks, aged Samuel Cooley, now occupying a cell in the Rock county jail on the charge of having murdered his companion, John Conroy, talked to a Gazette representative for one hour last evening, giving to the public for the first time a published statement of how and what prompted him to accidentally kill Conroy.

Cooley is occupying a spacious steel cage on the second floor of the jail, having for his cell companion John Finn, aged 23 years, who is now awaiting trial having been arrested in Beloit on a charge of forgery.

Cooley sleeps but little. The spacious steel cage that the aged man occupies is bordered on the north side by a small steel enclosed cell that contains two hammock beds made of canvas. These beds are small and are one above the other. Here Cooley and Finn rest at night. But Cooley since his arrest has slept but little. Being well advanced in years the terrible deed has unnerved him and the first few nights of his confinement he paced the floor like a man of unsound mind. The meals offered him were not over half eaten. His entire nervous system seemed to be wrecked and for a time the jail officials feared that the gray haired prisoner would die from the great nervous strain.

Friends Rally Around Him. During the past three days his condition has gradually improved. Relatives and friends have been to call on him and have offered him kind words of condolence. They have also sent him books, magazines and papers and these help to keep his mind occupied.

When the Gazette representative entered Cooley's cell last evening the aged prisoner sat on a wooden bench with his head resting between his hands. John Finn, his cell companion, sat by his side reading a book and puffing away at his cigarette.

Broke Into Tears. With outstretched, trembling hand the aged murderer greeted the scribe saying: "I am glad to see you."

When asked to give the public a plain statement of what happened on the night of the murder Cooley broke into tears and cried as if his heart would break. After a short pause he wiped the tears away and said:

"I really don't know what to say for publication. I never meant to kill Conroy. I have been with that boy ever since he was a baby. We have lived together for four or five years when we slept together. Never at any time have we had disputes except a friendly quarrel. There never was any hard feeling between us. He would stay at my house many a night."

He Did Not Murder Conroy. "I did not murder him. It was an accident. The night Conroy died I went to Watson's restaurant to get supper. After supper I walked to my brother's house on South Jackson street. From there I went to my place. It is true that both Conroy and myself had been drinking."

"When I went home Conroy was there. We soon got into an argument over some money."

"Conroy made for me, and I threw a carpenter's plane at him merely to ward him off. I did not strike him."

"I have done it, and I don't deny it. It is claimed that the plane struck him in the head. That part I don't know. I then sat on a near-by lounge, not knowing what I had done."

"Conroy, I think, lay on the floor near by. After while I said to Conroy: 'You need not fox off any longer.' Receiving no response I felt for his pulse. Then I shook him. As no signs of life appeared, the terrible thought then dawned over me for the first time that I had killed him. I then burst into tears saying: 'My God, he is dead.'"

Was Purely an Accident. "I never intended to kill that man. It was purely an accident. It is terrible. People will say, there goes that fellow that killed Conroy. I don't like to be pointed out as a murderer. Don't talk to me longer, as my attorney would not like it."

Sixty-Nine Years Old. Samuel Cooley came to Janesville in July, 1841. He was born in Birmingham, England, sixty-nine years ago. He was considered a skilled workman, and for twenty-four years worked for the planing mill firm of Shopbell & Norris. He at different times held the position of general foreman of the shop. Mr. Cooley is a married man, his wife now being a resident of this city. He also has two sons and six daughters.

Cooley is possessed of many warm friends in this city and men prominent in business circles have offered to sign

his bail bonds as soon as they are offered by the court.

The carpenter plane with which Cooley killed Conroy, is kept in a drawer in Sheriff Appleby's office. It weighs about five pounds and is an ordinary instrument.

It is quite evident that with one blow two marks could have been made on Conroy's head. These could be caused by the blade head and the end of the plane. Blood stains are on the tools.

Cooley is well known in Janesville and on all sides much sympathy is daily expressed for the aged prisoner.

Cooley's case will come before Judge B. F. Dunwiddie at the coming November term of the Rock county circuit court.

GIDEON SOCIETY IS GROWING FAST

IT WAS ORGANIZED IN THIS CITY ABOUT A YEAR AGO.

Has Been Thoroughly Organized On A Sound Basis and Now Has Over 800 Members—Grand Rally Will Be Held in Janesville on Sunday October 14th.

One year ago July 1st a society was organized in Janesville. Its object was the betterment of commercial travelers. From the first it had a steady growth until now it has grown into an organization with a membership of nearly 800 with lodges in twenty-two states in the union.

It has been thoroughly organized and put on a sound basis. National officers have been elected and also vice presidents in every state that has an organization of Gideons within its bounds.

The Gideons are a coming organization and members are being taken into the ranks every day. Nowadays the traveling man is recognized as a power in business and politics and he gets a warm welcome the country over. Still the traveling man as a class has not made the Y. M. C. A. jealous.

Now, however, the Gideons of America are coming to the front. Their other name is Christian traveling men. The society was organized less than a year ago and the membership already exceeds 800.

Preparing for Monster Rally

The Gideons of America have worked quietly up to this time, but now they are getting ready to have a monster rally. They have chosen Chicago as their meeting place, and the exercises will be held Sept. 29 and 30. It is expected that nearly all the members of the society will be present. Moreover, invitations have been extended to all of the traveling men of Chicago to attend, in fact the general public will be welcome.

Will Attend the Meeting

A number of the Wisconsin Gideons will attend the Chicago rally. Mr. and Mrs. J. H. Nicholson of this city will attend and it is expected that several others of the Janesville members will also be in attendance.

Following the Chicago rally, the Gideons of Madison will hold a rally in that city in the Presbyterian church on Sunday evening, October 7. Speakers from different parts of the state will be present, and addresses will be made by President S. E. Hill of Beloit, chaplain L. A. Smith of Oshkosh, J. H. Nicholson of Janesville, and H. S. Bell of Appleton.

Rally at Janesville.

The local Gideons are more interested in the grand rally that will be held in this city Sunday, October 14. An extensive program has been arranged for the occasion, and will be very interesting to those who attend. It includes a consecration service in the morning at the Congregational church, with addresses by H. S. Bell of Appleton, B. B. Billings of Evansville, and President Hill of Beloit.

A men's meeting in the afternoon at the Y. M. C. A. auditorium under the charge of the Gideons, will be held. Several speakers will be present, among them L. Williams of Chicago, who will lead.

The Young Peoples Union quarterly meeting will be under the charge of the Gideons and A. Anthony, of Springfield, Ill., a charming speaker, will address the meeting.

Grand Union Service.

The day's exercises will conclude with a grand union service in one of the churches, probably the Congregational in the evening. This service will be under the supervision of the Gideons and a number of addresses by prominent members will be made.

The Gideons are doing an immense amount of good along the line of work laid down by the charter. They also publish a Gideon quarterly which is a magazine devoted to the interests of the society and keeps the objects before the members. The editorial department is under the charge of J. H. Nicholson of this city. All the Gideons are associate editors and the advertising is in charge of R. L. Adams, Madison, Wis.

BLOCKADE OF NAVAL PORTS.

Hostile Attitude Assumed by a Chinese Fleet.

PRINCE TUAN IS DISPLACED.

Gen. Chaffee Has Arrived at Taku and Has Had an Interview with Li Hung Chang—Latest News from the Seat of War.

Berlin, Sept. 28.—A dispatch received here from St. Petersburg states that all the Chinese war ports, especially Fuchow and Canton, are being blockaded. A Chinese fleet, comprising a cruiser, an ironclad, six floating batteries, four gunboats, and three transports, all of old construction, has left Shanghai. The fleet has made no offensive movement as yet, but its departure causes anxiety among the European admirals, who are sending fast cruisers to protect the transports conveying troops, etc., to China. It will be necessary to increase the European fleet in the southern Chinese seas, both for the protection of transports and for independent action.

Chaffee Reaches Tien-Tsin. Tientsin, Sept. 25, via Yaku, Sept. 26.—General Chaffee has arrived and conferred with the staff officers of the different departments, with a view of establishing a winter base in the vicinity of Tientsin. He paid a visit to Torgku, making a general inspection. The present plan is understood to be tentative, and based upon the possible retention of the existing force. The plan contemplates placing the troops under canvas outside the city. General Chaffee paid a visit to Li Hung Chang, and informally discussed the outlook for a settlement. It is understood he proffered an American officer to accompany the viceroy to Peking. No other power, except Russia, has yet officially recognized Li Hung Chang's presence.

Says Tuan Has Been Displaced. Paris, Sept. 28.—A dispatch from Shanghai says it is stated there that the dowager empress has replaced Prince Tuan by Wang Wen Chao. If this is true, it shows that the influence of the Boxers is waning.

A Word to Mothers. Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise of States and in many foreign lands. For sale by Smith's pharmacy next to post office. Kodak agents.

Trolley Car Hits an Engine. Chicago, Sept. 28.—A fire engine collided with a south-bound electric car at Ashland avenue and Fifty-first street and five persons were severely injured. They are: Lieutenant Bernard McDonough, spine thought to be broken; right leg broken; injuries probably fatal. Charles J. Rowe, engineer, two ribs broken; badly bruised about the body. Paul Drews, assistant engineer, badly bruised about the head and body; injured internally. August M. Mesbauer, driver, bruised about the body; condition not serious. A. Wasserman, conductor.

Gives Her Nurse \$1,000,000. Lynn, Mass., Sept. 28.—Mrs. Ora Horsman, a pretty nurse here, is worth perhaps \$1,000,000, due to the beneficence of Mrs. William Porter of Boston. Mrs. Porter is 85 years old and feeble. She lives in the Back Bay district, and there has been nursed and cared for by Mrs. Ora Horsman. On Sept. 5 Mrs. Porter paid her nurse with \$80,000, and on Sept. 9 made a will leaving Mrs. Horsman all her property.

The great success of Chamberlain's Cough, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made its standard over the greater part of the civilized world. For sale by Smith's pharmacy next to post office, kodak agents.

Greek Warship at New York. New York, Sept. 28.—The Greek war ship Naumachos Mianlis arrived here from Philadelphia today. She is on the way to Boston, where she will remain ten days, returning thence to the Mediterranean. The Naumachos Mianlis is the first Greek war ship to visit the United States.

It dulls the scythe of Father Time drives away wrinkles and approaching old age—the elixir of life, that puts hope in the human heart—Rocky Mountain Tea. Smith's pharmacy; kodak agents, next to postoffice.

Planned to Mob Roosevelt. Pueblo, Colo., Sept. 28.—Governor Theodore Roosevelt narrowly escaped mobbing at this city. The confession of an Italian, named Igo Ferrio, all that saved him from a rough time. Two hundred Hungarians and Italians here, employed in the smelting works and avowed anarchists, were prepared to rotten egg him. They so intended to rush his escort with stones and eggs and drive him to his car for safety. The mayor and chief of police who are both Democrats, acted with promptness. By the time the governor arrived six of the ringleaders were under arrest.

GUIDE FOR RAILWAY EXCURSIONISTS

Cleanest in America. The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-blasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the mountain region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

Genesee Pure Food Co., Le Roy, N. Y.: Dear Sirs:—Some days since a package of your GRAIN-O preparation was left at my office. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank. Respectfully yours, A. C. JACKSON, M. D.
